CITY OF BANNING STAFF REPORT

TO: CITY COUNCIL

FROM: Douglas Schulze, City Manager

PREPARED BY: Nate Smith, Deputy Director of Public Works

MEETING DATE: November 8, 2022

SUBJECT: Update on the Design of Sun Lakes Boulevard Extension

RECOMMENDATION:

The purpose of this report is to provide City Council with an update on the Design of Sun Lakes Boulevard Extension (Project).

BACKGROUND:

Sun Lakes Boulevard extension will connect Highland Home Road and Sunset Avenue in alignment with Sun Lakes Boulevard to the west and Westward Avenue to the east. The realignment of Sun Lakes Boulevard will ease traffic congestion at the intersections of Highland Springs Avenue and Interstate 10 ramps and Highland Springs Avenue and Ramsey Street. The City lacks a quick alternative route for residents south of the interchange 10 to travel to the west in case of an emergency closure of the freeway.

The proposed Project site is approximately 5,390 feet long, 110-feet wide, and encompasses approximately 13.3 acres. The proposed Project follows existing City right-of-way, which is why it includes the two gentle curves north of the existing dirt road (see attachment 1).

Sun Lakes Boulevard is designated in the City's Circulation Element as an Arterial Highway and will be constructed with two eastbound and two westbound lanes each containing a 12-feet wide lane and a 14-feet wide lane; a raised 18 feet wide median; eastbound and westbound 8-foot bike lane; 8-foot sidewalks; associated road striping, and street light improvements. Left turn pockets are proposed at the intersection of Highland Homes Road, future intersecting streets, and at Sunset Avenue.

On April 14, 2020 City Council approved Resolution 2020-48, awarding a Professional Services Agreement for the Design of Sun Lakes Boulevard Extension from Highland Homes Road to Sunset Avenue, to Albert A. Webb. The scope of work included project development, project management; the preparation of preliminary engineering design,

environmental documentation, final design plans, specifications, and estimates; permitting and construction support.

At the time of this report, the consultant has completed the following tasks:

1. Initial Study/Mitigated Negative Declaration in compliance with California Environmental Quality Act (CEQA).
2. Final Design plans continue to evolve, and the consultant has submitted completed 90% of the street improvement plans, storm drain plans, signing and striping plans, landscaping plans and street lighting plans. These plans are currently being reviewing by City staff.

The next step is to complete the design plans and circulate (CEQA) documents for public comment.

FISCAL IMPACT:

The cost for the preparation of the environmental documentation, plans, specifications and estimates; is funded by the Western Riverside Council of Governments (WRCOG) Transportation Uniform Mitigation Fee (TUMF) funds.
